- C. Different assessment to change - disagree over disadvantages and advantages
- D. Personal choice

14. This happens when a company makes a transition from its current state of doing things to future desired state of doing things which is either a planned and a strategic change, or a forced and dynamic change.

- A. Planned Change
- B. Dynamic Change
- C. Organizational Change
- D. None of the above

15. Change that was not planned and is forced by unforeseen circumstances.

- A. Planned Change
- B. Dynamic Change
- C. Organizational Change
- D. None of the above

16. Change that one has prepared for.

- A. Planned Change
- B. Dynamic Change
- C. Organizational Change
- D. None of the above

17. Three phases of change except

- A. Preparing for Change
- B. Managing Change
- C. Reinforcing Change
- D. Monitoring change

18. Focuses on the people side of change and requires each of the gears in the picture to fulfill their specific role.

- A. Change Management
- B. Change Manager
- C. Role Identification and Mapping
- D. Training design, development and Deployment

19. Defines and manages the activities to ensure the achievement of the business case after go live.

- A. Benefit Realization/ Value Delivery
- B. Executive Ownership and Sponsorship
- C. Role Identification and Mapping
- D. Training design, development and Deployment

20. Share key Business Impact Assessment findings with affected users before training to ensure they are prepared for major changes.

- A. Change Guides
- B. Executive Ownership and Sponsorship
- C. Role Identification and Mapping
- D. Training design, development and Deployment

21. Identifies how the changes from the "As-is" processes, systems, and structures to be "To be" processes, systems, and structures **impact specific organizations and roles.**

- A. Organizational Design/ Alignment
- B. Stakeholder Analysis
- C. HR Alignment
- D. Business Impact Assessment

22. Identifies HR Activities that may need to be undertaken as a result of the system, process, and organizational changes.

- A. Organizational Design/ Alignment
- B. Stakeholder Analysis
- C. HR Alignment
- D. Business Impact Assessment

23. Captures characteristics of the impacted organization such as group size and buy-in criticality.

- A. Organizational Design/ Alignment
- B. Stakeholder Analysis
- C. HR Alignment
- D. Business Impact Assessment

24. Outlines how the organizational structure, jobs, teams and roles need to change to enable future business processes.
- A. Organizational Design/ Alignment      C. HR Alignment  
B. Stakeholder Analysis      D. Business Impact Assessment
25. Focuses on improving an organization's effectiveness and health through planned interventions in its processes, using behavioral science knowledge.
- A. Kotter's 8 steps of change management      C. ADKAR Change Management Model  
B. Kurt Lewin 3 way model      D. OD-an action - research-based model of change
26. Designed to help organizations analyze and align key internal elements for effectiveness and change. It identifies 7 key interdependent elements that need to be aligned for success.
- A. Kotter's 8 steps of change management      C. ADKAR Change Management Model  
B. Kurt Lewin 3 way model      D. McKinsey 7s Model
27. It is a practical framework created by Prosci founder Jeff Hiatt to guide individuals and organizations through change. It focuses on the people side of change and outlines the key building blocks needed for successful transformation.
- A. Kotter's 8 steps of change management      C. ADKAR Change Management Model  
B. Kurt Lewin 3 way model      D. McKinsey 7s Model
28. **Unfreeze** the old → **Change** to the new → **Refreeze** to make it stick.
- A. Kotter's 8 steps of change management      C. ADKAR Change Management Model  
B. Kurt Lewin 3 way model      D. McKinsey 7s Model
29. This model is widely used across industries due to its clear, actionable steps and focus on leadership and culture as critical components of change.
- A. Kotter's 8 steps of change management      C. ADKAR Change Management Model  
B. Kurt Lewin 3 way model      D. McKinsey 7s Model
30. The following are OD's underlying values except:
- A. Concept of people      C. Democratic Principles  
B. Concern for science      D. Relationship Building
31. Referred to as in group, within group, or commonly just group dynamics are the underlying processes that give rise to a set norms, roles, relations, and common goals that characterize a particular social group.
- A. Social Groups      C. Intergroup Dynamics  
B. Homogenous Groups      D. Intragroup Dynamics
32. Who coined the term, Team Dynamics?
- A. Kyrt Lewin      C. John Lock  
B. Charles Darwin      D. Elton Mayo
33. Defined as a field of inquiry dedicated to the advancing knowledge about the nature of groups, the laws of their development and their interrelations with individuals, other groups and larger institutions.
- A. Team Dynamics      C. Group Harmony  
B. Synergy      D. Development of Groups
34. What are the four distinct functions of HRM?
- A. Human, Resources, Management and Principles  
B. Hotel, Restaurant, Management and People  
C. Employment, Training & Development, Compensation and Benefits, & Employee Relations  
D. d. Employment, Training & Development, Payroll and Programs
35. Recruitment, Placement & Utilization of Employees, Training and Development, Motivation of employees, and Compensation. The following belong to what?
- A. Operative Functions      C. Both A & B  
B. Basic Functions      D. None of the above
36. Refers to a planned effort by an organization to provide its employees with specific knowledge or skills to improve their current job performance.

- A. Employee Training                    C. HRD  
B. Human Resources Training        D. All of the above

37. It concerns the overall improvement of the systems in an organization.

- A. Employee Training                    C. Human Resources Training  
B. Organizational Development      D. None of the above

38. Also known as Learning and Development (L&D)

- A. Human Resource Management      C. Human Resources Training  
B. Human Resource Development    D. None of the above

39. Refers to an assortment of training programs that help people adjust to their new roles and learn more about the organization and its culture.

- A. Human Resource Management      C. Human Resources Training  
B. Human Resource Development    D. None of the above

40. Concerned with all aspects of how people are employed and managed in organizations.

- A. Human Resource Management      C. Human Resources Training  
B. Human Resource Development    D. None of the above

41. Negative effects of other's presence.

- A. Audience Effect                    C. Social Inhibition  
B. Coaction                            D. Social Facilitation

42. The following are the factors affecting group performance except:

- A. Group Cohesiveness                C. Group Pressure  
B. Group Size                         D. Group Think

43. The following are not the reasons for joining the group except:

- A. Affiliation                        C. Power  
B. Challenge                         D. Stability

44. Person who provides the opportunity for every member to express his or her opinions.

- A. Challenger                        C. People Supporter  
B. Process Observer                D. Gatekeeper

45. This role criticizes the any decision or preliminary thinking that is efficient in any ways.

- A. Challenger                        C. People Supporter  
B. Process Observer                D. Listener

46. Serves as a model of active listening while others do presentations.

- A. Knowledge Contributor          C. People Supporter  
B. Process Contributor             D. Listener

47. Forces the members to look at how the group functions.

- A. Knowledge Contributor          C. People Supporter  
B. Process Contributor             D. Listener

48. Intends on helping task accomplishments.

- A. Knowledge Contributor          C. People Supporter  
B. Process Contributor             D. Listener

49. Only one member of the group must see the group as a unit. There's no need to provide rewards if you are in a group.

- A. Both statements are correct.  
B. First statement is correct. The second statement is incorrect.  
C. First statement is incorrect. The second statement is correct.  
D. Both statements are incorrect.

50. Anything that happens to one member of the group affects every other member. The members of the group must share a common goal.
- A. Both statements are correct.
  - B. First statement is correct. The second statement is incorrect.
  - C. First statement is incorrect. The second statement is correct.
  - D. Both statements are incorrect.
51. This theory considers the effect on individual performance when people work together on a task.
- A. Audience Effect
  - C. Social Inhibition
  - B. Coaction
  - D. Social Facilitation
52. The following are characteristics of a not effective work group except:
- A. Job Design
  - C. Team Efficiency
  - B. Collaboration
  - D. Group Intelligence
53. Tendency to make poor decisions despite contrary information that might reasonably lead them to other options.
- A. Group Think
  - C. Team Efficiency
  - B. Group Collaboration
  - D. Team Homogeneity
54. Collection of two or more individuals who interact intensively to provide an organizational product, decision or service.
- A. Teams
  - C. Heterogenous Groups
  - B. Pairing
  - D. Team Homogeneity
55. The following are the types of teams, except:
- A. Work teams
  - C. Project Teams
  - B. Parallel Teams
  - D. Team building
56. First stage of group development is \_\_\_\_\_?
- A. Adjourning
  - C. Brainstorming
  - B. Storming
  - D. Forming
57. Another person is keeping you from reaching a goal \_\_\_\_\_.
- A. Sabotage
  - C. Conflict
  - B. Red flag
  - D. Dispute
58. Type of conflict that occurs between two individuals.
- A. Interpersonal Conflict
  - C. Paired Dispute
  - B. Intrapersonal Conflict
  - D. Individual- Group Conflict
59. The following are causes of conflict except:
- A. Competition for Resources
  - C. Communication Barrier
  - B. Task Interdependence
  - D. None of the above
60. Wants to win but also wants another person to win.
- A. Collaborating Style
  - C. Forcing Style
  - B. Compromising Style
  - D. Avoiding Style
61. Wants to win but also wants another person to win.
- A. Collaborating Style
  - C. Forcing Style
  - B. Compromising Style
  - D. Avoiding Style
62. It is a branch of Psychology that applies the principles of psychology to the workplace.
- A. Industrial-Organization Psychology
  - C. Psychology of Behaviors in the workplace
  - B. Psychology of Human
  - D. Industrial Counseling
63. The purpose of IOP is to enhance the dignity and performance of human beings, and the organizations they work in, by advancing the science and knowledge of human behavior.
- A. The statement is correct
  - C. The statement is partially correct.
  - B. The statement is incorrect.
  - D. The statement is partially incorrect.

64. The IOP is focusing on people. And it also includes the system of running an organization.

- A. The first statement is correct. While the second is incorrect.
- B. The second statement is incorrect. While the second is correct.
- C. Both statements are correct.
- D. Both statements are incorrect.

65. Clinical Psychologists conducts therapy for workers. I/O Psychologists also conducts therapy for workers.

- A. The first statement is correct. While the second is incorrect.
- B. The second statement is incorrect. While the second is correct.
- C. Both statements are correct.
- D. Both statements are incorrect.

66. An entity that exists to achieve a purpose through the collective efforts of the people who work in or for it.

- A. Organization
- C. Group
- B. Team
- D. None of the above

67. It helps managers to explore, analyze and explaining what is happening in the organization.

- A. Organization
- C. Organization Structure
- B. Organization Theory
- D. Organization Frameworks

68. The following are the organization theories, except:

- A. Classical Theory
- C. Modern Classical
- B. Neo classical Theory
- D. None of the above

69. View organization as machines and people as components of a machine.

- A. Classical Theory
- C. Modern Classical
- B. Neo classical Theory
- D. None of the above

70. Efficiency of the organization can be increased by making each individual efficient in it.

- A. Classical Theory
- C. Modern Classical
- B. Neo classical Theory
- D. None of the above

71. Organization Culture represents the shared values, norms and beliefs that shapes the behavior of individuals in an organization.

- A. Contingency Theory
- C. Resource Dependency Theory
- B. Systems Theory
- D. Organizational Culture and Behavior

72. Focused on how organizations cope with their dependence on external entities.

- A. Contingency Theory
- C. Resource Dependency Theory
- B. Systems Theory
- D. Organizational Culture and Behavior

73. Emphasized the importance of understanding how different components within an organization interact and influence each other.

- A. Contingency Theory
- C. Resource Dependency Theory
- B. Systems Theory
- D. Organizational Culture and Behavior

74. Organization's structures and processes should be contingent upon various factors such as external environment, technology and organizational size.

- A. Contingency Theory
- C. Resource Dependency Theory
- B. Systems Theory
- D. Organizational Culture and Behavior

75. The theory views organization as a system and studies it in its totality as a complex human interrelationship.

- A. Scientific Management
- C. Neoclassical Theories
- B. Classical Theories
- D. Modern Organization Theory

76. It refers to a phenomenon where individuals alter their behavior in response to being observed.

- A. Scientific Management
- C. Hawthorne Studies
- B. Classical Theories
- D. Modern theories

77. View organization as a combination of formal and informal forms of organization.

- A. Scientific Management
- B. Classical Theories
- C. Neo Classical Organization Theory
- D. Modern theories

78. Defined universal function of managers and identified principles of good management.

- A. Scientific Management
- B. Time motion studies
- C. Administrative Management
- D. Modern theories

79. Determination of the most efficient methods for performing any work-related task.

- A. Scientific Management
- B. Time motion studies
- C. Neo classical
- D. Modern theories

80. Who proposed the scientific management?

- A. Taylor
- B. Fayol
- C. Weber
- D. None of the above

81. Organizations are viewed as networks of relationship and interactions.

- A. Network Theory
- B. Systems Theory
- C. Resource Dependency Theory
- D. Organizational Culture and Behavior

82. The ability of an organization to learn and adapt is crucial for its survival and success.

- A. Organizational Learning
- B. Systems Theory
- C. Resource Dependency Theory
- D. Organizational Culture and Behavior

83. Contains a direct chain of command from the top of the organization to the bottom.

- A. Hierarchical Structure
- B. Functional Structure
- C. Flat Structure
- D. Matrix Structure

84. Business structure that groups employees by specialty, skill, or related roles. It works best for larger companies that employ multiple people with similar roles.

- A. Hierarchical Structure
- B. Functional Structure
- C. Flat Structure
- D. Matrix Structure

85. Organizational model with relatively few or no levels of middle management between the executives and the frontline employees. Popular in startups.

- A. Hierarchical Structure
- B. Functional Structure
- C. Flat Structure
- D. Matrix Structure

86. Combination of two or more different kinds of organizational structures, such as project management or functional management.

- A. Hierarchical Structure
- B. Functional Structure
- C. Flat Structure
- D. Matrix Structure

87. A network structure is one in which more than one organization combines to produce a good or provide a service.

- A. Network structure
- B. Functional Structure
- C. Flat Structure
- D. Matrix Structure

88. The process of structuring roles, tasks, and responsibilities in a way that aligns with organizational objectives while meeting the needs of employees - find motivation and satisfaction at work.

- A. Job Design
- B. Departmentation
- C. Delegation
- D. Span of Control

89. A common organizational structure that groups employees by the functions they perform.

- A. Job Design
- B. Departmentation
- C. Delegation
- D. Span of Control

90. The process of entrusting tasks and authority to subordinates. It enables efficient task distribution, fostering employee development, and improving overall organizational performance.

- A. Job Design
- B. Departmentation
- C. Delegation
- D. Span of Control

91. Feelings that arouse people and therefore influence their behavior such as anger, fear, sadness, joy, anticipation and acceptance.

- A. Ability
- B. Intelligence
- C. Personality
- D. Emotion

92. They are developed through experience, but they are less stable than traits and can change as new experiences are gained or influences absorbed.

- A. Ability
- B. Intelligence
- C. Personality
- D. Attitudes

93. These are product of both nature (hereditary) and nurture (the pattern of life experience).

- A. Ability
- B. Intelligence
- C. Personality
- D. Attitudes

94. The capacity to solve problems, apply principles, make inferences and perceive relationships.

- A. Ability
- B. Intelligence
- C. Personality
- D. Attitudes

95. The quality possessed by people that makes an action possible.

- A. Ability
- B. Intelligence
- C. Personality
- D. Attitudes

96. These are visible and tangible aspects of an organization that people hear, see or feel and which contribute to their understanding of the organization's culture.

- A. Values
- B. Norms
- C. Artefacts
- D. Management Styles

97. These are unwritten rules of behavior, the 'rules of the game' that provide informal guidelines on how to behave.

- A. Values
- B. Norms
- C. Artefacts
- D. Management Styles
